N/A – not applicable

^aARC identified these projects (shaded in table) in September 2006 as “projects of concern” as part of the Envision6 process. These projects include a phase that has been programmed two or more times. ARC has highlighted these projects as those that are required to demonstrate progress prior finalizing the FY 2008-2013 TIP.

^bEstimated total project costs include costs for preliminary engineering (PE), right-of-way (ROW), and construction (CST) not authorized in previous Transportation Improvement Programs.
